As an AMPS show, we will be using the AMPS open judging system where ***each model is judged on its own merit*** by a team of four judges. There are several things you can do to assist the judges in evaluating your model:

1. Type up a short description of what you did while building the model
2. Any in-progress photos showing any modifications you did. Remember a picture is worth a thousand words.
3. A list of references consulted in building the model.

An unlimited number of Bronze, silver and bronze medals can be awarded in each category. For more info: [www.amps-armor.org](http://www.amps-armor.org)
