

## AK 300 DARK YELLOW WASH

A wash specially designed for German Dark Yellow (Dunkelgelb), but also great for vehicles in medium tones. Just shake well before use and you can apply it directly to your model to create contrast and depth in the details. This is an enamel product and can be dissolved using our White Spirit or Odourless Turpentine.

Apply with a fine brush the wash around the nooks and crevices.

With a clean brush dipped in thinner AK011 White spirit will clean the surface and removing the excess washing.

Appearance after product application.

We can also use it to dye the sea skin prior to use as vegetation in a diorama or vignette.
